Match report

Redmoor United 4 - 2 Saltmarsh Town

Lumen League. Synthetic match red-card-drama. Report built 2026-10-21.

At a glance

- **Result.** Redmoor 4 - 2 Saltmarsh. Shots 17 to 10, expected goals 2.93 to 1.60.
- **Biggest swing.** The goal at 17' moved the odds by 17 points.
- **Player of the match.** Oscar Garorford (Saltmarsh, ST) by possession value, +2.83.
- **Redmoor** played a 4-4-2; it spent most of the match in mid block (43% of the time).
- **Saltmarsh** played a 4-1-4-1; it spent most of the match in settled attack (45% of the time).

The match in the system's words

Redmoor beat Saltmarsh 4-2. Possession Redmoor 43%, Saltmarsh 57%. Shots 17 to 10. xG 2.9 to 1.6. Pass accuracy 83% to 87%. Turning point: Penalty to Redmoor. Biggest swing: Redmoor's goal at 17' took their win probability from 77% to 94%. Player of the match: Oscar Garorford (Saltmarsh), goals 2, assists 0, shots 6.

How to read this report

Each part opens with a line in italics saying what the numbers measure, then shows what this match produced. Part 1 tells the story; part 2 shows how each team's shape changed with and without the ball; part 3 explains every position and who played it; part 4 goes through the analytics views one by one; part 5 lists every player; part 6 compares all nine formations; part 7 says how far to trust each number.

Contents

2. Tactics: the same team with and without the ball 4

3. Every position, and who played it 7

4. The analytics, view by view 9

5. Every player 15

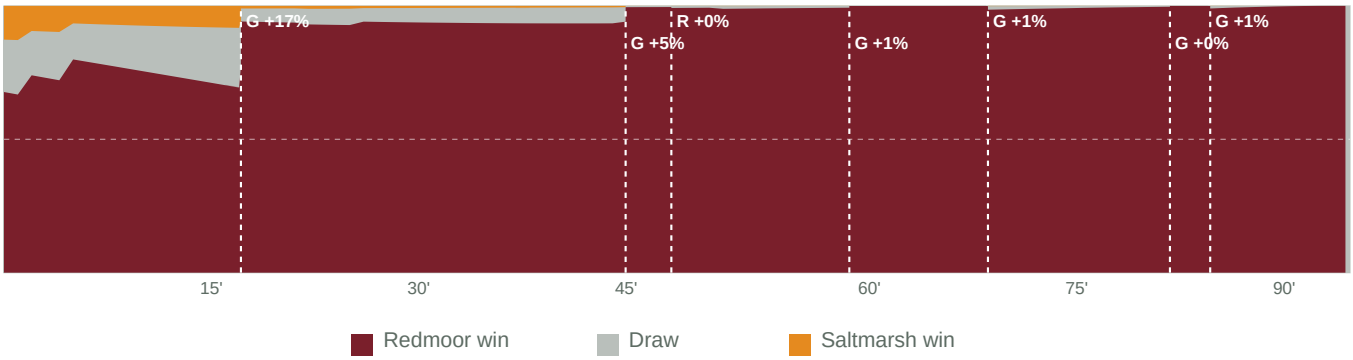

6. All nine formations compared 16

7. What to trust 17

1. The story of the match

Win probability

The chance each result is the right one, minute by minute, from the score, the time left, the expected goals so far and any sending-off. A goal moves it by the width of the step.

Before kick-off the model gave Redmoor 68%, a draw 20% and Saltmarsh 13%. At full time: 100%, 0%, 0%.

What moved the odds

Minute	Event	Redmoor	Draw	Saltmarsh
17'	Goal	77% to 94%	17% to 5%	6% to 1%
44'	Goal	94% to 100%	5% to 0%	0% to 0%
45'	Red card	100% to 99%	0% to 1%	0% to 0%
58'	Goal	99% to 100%	1% to 0%	0% to 0%
68'	Goal	100% to 99%	0% to 1%	0% to 0%
81'	Goal	100% to 100%	0% to 0%	0% to 0%
84'	Goal	100% to 99%	0% to 1%	0% to 0%

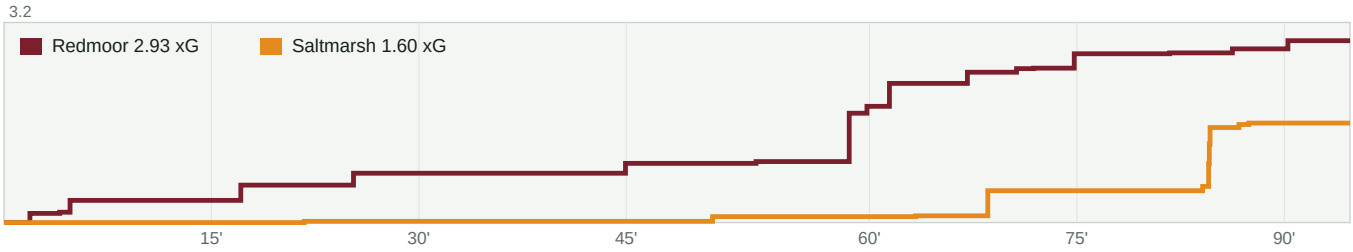

Key moments

The moments the system judged worth telling, with the reason and what it means. Salience is how much a moment deserves attention (0 to 1).

Minute	Moment	Team	Why it matters
15'	Pressure surge	Saltmarsh	Saltmarsh are closing down much quicker, giving Redmoor less time on the ball.
17'	Goal	Redmoor	Pablo Pelarski scores. It's Redmoor 1-0 Saltmarsh. Zane Roweov set it up.
44'	Goal	Redmoor	Zane Roweov scores. It's Redmoor 2-0 Saltmarsh. Pablo Pelarski set it up.
45'	Red card	Redmoor	Viktor Ivarell is sent off (second yellow), so Redmoor are down to ten men.
56'	Pressure collapse	Redmoor	Redmoor can't keep the press going, so Saltmarsh now have more time on the ball.
58'	Penalty	Saltmarsh	Dario Quinski fouls Zane Roweov in the box; Redmoor have a penalty.
58'	Goal	Redmoor	Pablo Pelarski scores from the spot. It's Redmoor 3-0 Saltmarsh.
68'	Goal	Saltmarsh	Oscar Garorford scores. It's Redmoor 3-1 Saltmarsh. Ben Greyaell set it up.
69'	Momentum swing	Saltmarsh	The momentum has swung: Saltmarsh are now the more dangerous side.
77'	Momentum swing	Redmoor	The momentum has swung: Redmoor are now the more dangerous side.
81'	Goal	Redmoor	Theo Ivarford scores. It's Redmoor 4-1 Saltmarsh. Felix Beldal set it up.
84'	Goal	Saltmarsh	Oscar Garorford scores. It's Redmoor 4-2 Saltmarsh.
90+1'	Pressure surge	Redmoor	Redmoor are closing down much quicker, giving Saltmarsh less time on the ball.

Expected goals through the match

Cumulative expected goals for each team; steps are shots.

2. Tactics: the same team with and without the ball

A formation is not one shape. Teams change shape with the ball, and how they press and how they behave in the seconds after winning or losing it depends on the shape they start from. Each team below is shown in six shapes: its nominal formation and the five working phases. The drawings are schematics, attacking left to right.

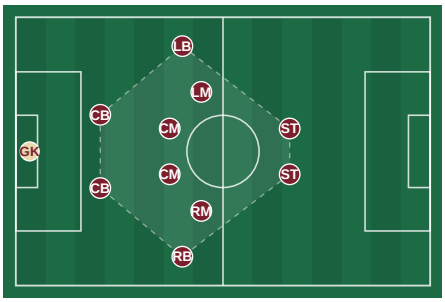

Redmoor United: 4-4-2

Two banks of four, a strike pair.

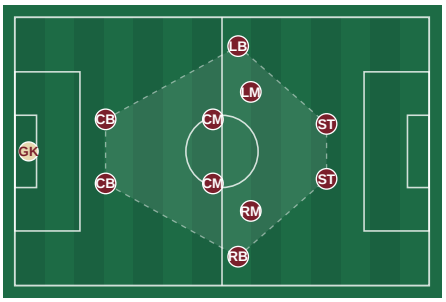

Nominal nominal

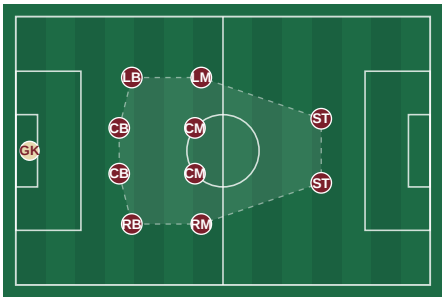

Build-up 4-4-2

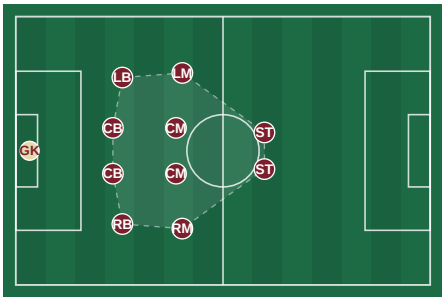

Settled attack 2-4-4

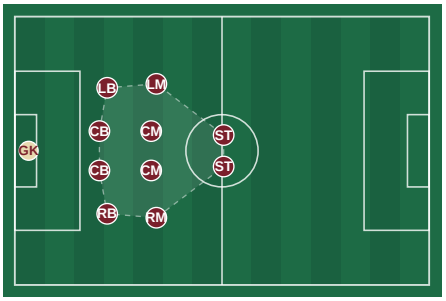

Press 4-4-2

Mid block 4-4-2

Low block compact

Rest defence. While the team attacks, CB CB stay behind the ball as cover against a counter.

Time in each phase

Phase	Share	Entered	Line height	Length	Width	What usually sets it off
Build-up	6%	32	16 m	32 m	49 m	ball in the own third (32)
Settled attack	39%	74	42 m	43 m	55 m	ball moved on from the own third (70), the ball is beyond the press line (2)
Press	0%	0	41 m	39 m	47 m	n/a
Mid block	43%	70	32 m	27 m	38 m	the ball is beyond the press line (49), protecting a lead late on (11)
Low block	11%	29	17 m	26 m	36 m	protecting a lead late on (17), a deep line: the ball is near the own goal (12)

Line height is the average distance of the four deepest outfield players from their own goal, length the distance between the deepest and highest outfield player, width the distance between the widest two. Each is averaged over the time the team spent in that phase.

Designed against measured. Designed: 4-4-2 out of possession, 2-4-4 in possession. Measured from the average positions: 4-5-1 out of possession, 2-3-3-2 in possession.

How the club plays it

Tactic	Setting	What it means
Press scheme	zonal	presses by zone: it holds a shape and closes the ball down when it enters the zone
On loss	regroup	regroups: it contains for two seconds, then drops back into shape
On win	counter	breaks at once after winning the ball
Build up	long	goes long from the goalkeeper
Fullbacks	overlap	fullbacks overlap: they run past the winger on the outside
Pivot	stay	the pivot stays in midfield
Striker	target	a target nine who stays on the last line
Corners	far	targets the far post at corners
Corner defence	man	defends corners man for man

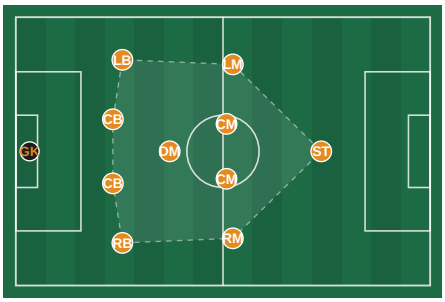

Style dials (0 to 1): press intensity 0.50, press height 0.45, line height 0.45, width 0.60, tempo 0.55, directness 0.70, counter bias 0.60.

Saltmarsh Town: 4-1-4-1

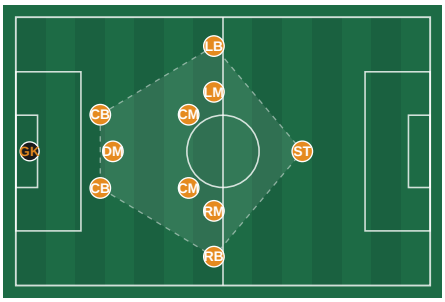

A lone holding midfielder screening the back four.

Formation changes: 4-1-4-1 to 4-3-3 at 61'.

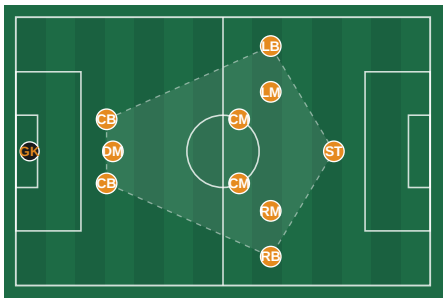

Nominal nominal

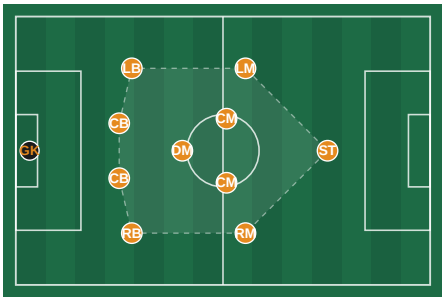

Build-up 3-2-4-1

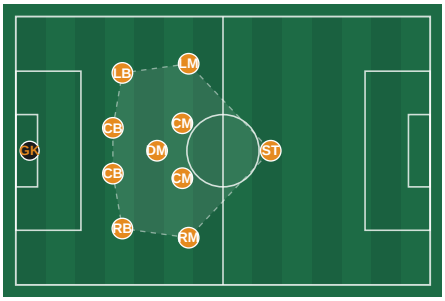

Settled attack 3-2-5

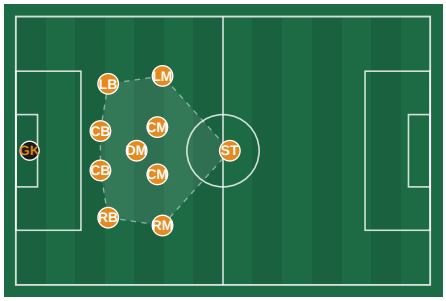

Press 4-1-4-1

Mid block 4-5-1

Low block compact

Rest defence. While the team attacks, CB CB DM stay behind the ball as cover against a counter.

Time in each phase

Phase	Share	Entered	Line height	Length	Width	What usually sets it off
Build-up	11%	35	15 m	33 m	54 m	ball in the own third (34), ball moved on from the own third (1)
Settled attack	45%	71	32 m	41 m	55 m	ball moved on from the own third (69), just lost the ball (counter-press) (2)
Press	16%	25	34 m	37 m	37 m	a carrier pushed to the touchline (the trap) (16), the ball entered the press zone (9)
Mid block	28%	67	25 m	28 m	39 m	the ball is beyond the press line (49), a carrier pushed to the touchline (the trap) (11)
Low block	0%	0	n/a	n/a	n/a	n/a

Line height is the average distance of the four deepest outfield players from their own goal, length the distance between the deepest and highest outfield player, width the distance between the widest two. Each is averaged over the time the team spent in that phase.

Designed against measured. Designed: 4-5-1 out of possession, 3-2-5 in possession. Measured from the average positions: 4-5-1 out of possession, 3-2-5 in possession.

How the club plays it

Tactic	Setting	What it means
Press scheme	wide_trap	presses with a trap: it closes from the inside to steer the ball to the touchline, then jumps on it with one more player
On loss	regroup	regroups: it contains for two seconds, then drops back into shape
On win	keep	keeps its shape and builds after winning the ball
Build up	short	builds short from the goalkeeper
Fullbacks	overlap	fullbacks overlap: they run past the winger on the outside
Pivot	drop	the pivot drops between the centre-backs to make a back three
Striker	target	a target nine who stays on the last line
Corners	edge	plays corners to the edge of the box
Corner defence	mixed	mixes zonal and man marking at corners

Style dials (0 to 1): press intensity 0.55, press height 0.50, line height 0.50, width 0.65, tempo 0.55, directness 0.50, counter bias 0.55.

The five phases

Build-up. The team has the ball in its own third. The centre-backs split, the pivot drops, the fullbacks and forwards hold their width and the team tries to play out under pressure.

Settled attack. The ball is past the first phase. Fullbacks and wing-backs push on, wide players come inside, and the team sets up for the final third while a few players stay back as cover against a counter.

Press. The other team has the ball in the zone where this team is willing to press. The front line steps up and angles its runs to cut passing lanes; the rest of the team squeezes up behind.

Mid block. The team defends in a compact shape with the ball beyond its press line. It keeps its lines close and waits for the pass that triggers the press.

Low block. The team defends deep: the ball is in its own third, or it is protecting a lead late on. Short, narrow and close to goal, it gives up possession to protect the box.

3. Every position, and who played it

For each of the eleven places in the team: the job in general, what this club asks of it, and the numbers of the player who filled it. Value is possession value: the change in the chance of scoring minus the chance of conceding that the player's actions created.

Redmoor United: 4-4-2

Position	Player	In possession	Out of possession
GK Goalkeeper	**Mehmet Vasaberg** #13 3/4 passes, value +0.63	Starts attacks with short or long distribution and acts as an extra passer against a press; on a high line also sweeps up behind it.	Stops shots, claims crosses and organises the back line.
LB Left back	**Malik Zanelson** #18 97 min, 26/28 passes, 1 pressures, value +0.13, 12.7 km	Pushes up to overlap the winger, or tucks inside as an extra midfielder, depending on the club's style. **This club:** Overlaps: runs past the winger on the outside.	Defends the left channel, tracks the opposing winger and closes down crosses.
CB Centre-back	**Idris Soladford** #4 97 min, 8/11 passes, 2 tackles, 3 pressures, value +0.36, 11.4 km	Splits wide to build, plays the first pass out of defence and steps into midfield when space opens; stays back as cover against the counter.	Marks the main striker, defends the box and the space behind, and sets the height of the defensive line.
CB Centre-back	**Idris Lanaez** #25 97 min, 4/6 passes, 2 tackles, 4 pressures, value -0.03, 11.5 km	Splits wide to build, plays the first pass out of defence and steps into midfield when space opens; stays back as cover against the counter.	Marks the main striker, defends the box and the space behind, and sets the height of the defensive line.
RB Right back	**Cem Braarell** #2 97 min, 24/26 passes, 1 tackles, 1 pressures, value +0.08, 12.7 km	Pushes up to overlap the winger, or tucks inside as an extra midfielder, depending on the club's style. **This club:** Overlaps: runs past the winger on the outside.	Defends the right channel, tracks the opposing winger and closes down crosses.
LM Left midfielder	**Alex Eldadard** #17 listed LW, plays LM 97 min, 41/51 passes, 3 tackles, 4 interceptions, 2 pressures, value -0.02, 13.2 km	Holds the left touchline or tucks inside, supporting the fullback.	Forms the wide part of the midfield bank and tracks back.
CM Central midfielder	**Reuben Garmont** #8 97 min, 18/22 passes, 2 tackles, 12 pressures, value +0.07, 12.2 km	Links play between the lines, supports the wide players and runs beyond the striker.	Covers the half-space, presses the ball carrier and tracks the runners coming from midfield.
CM Central midfielder	**Viktor Ivarell** #28 97 min, 7/8 passes, 5 pressures, value -0.03, 5.9 km	Links play between the lines, supports the wide players and runs beyond the striker.	Covers the half-space, presses the ball carrier and tracks the runners coming from midfield.
RM Right midfielder	**Declan Ravenford** #7 listed RW, plays RM 84 min, 23/27 passes, 2 tackles, 3 pressures, value +0.07, 11.4 km	Holds the right touchline or tucks inside, supporting the fullback.	Forms the wide part of the midfield bank and tracks back.
ST Striker	**Pablo Pelarski** #9 65 min, 78/95 passes, 2 goals, 1 assists, 2 tackles, 1 interceptions, 10 pressures, value +1.18, 9.0 km	Pins the centre-backs and finishes; as a false nine drops into midfield to link play.	Leads the press: closes the centre-backs and cuts the pass to the pivot.
ST Striker	**Zane Roweov** #21 listed AM, plays ST 76 min, 75/95 passes, 1 goals, 1 assists, 4 tackles, 12 pressures, value +0.91, 10.7 km	Pins the centre-backs and finishes; as a false nine drops into midfield to link play.	Leads the press: closes the centre-backs and cuts the pass to the pivot.

Saltmarsh Town: 4-1-4-1

Position	Player	In possession	Out of possession
GK Goalkeeper	**Marco Braerski** #1 10/13 passes, value +0.66	Starts attacks with short or long distribution and acts as an extra passer against a press; on a high line also sweeps up behind it.	Stops shots, claims crosses and organises the back line.
LB Left back	**Andre Dorerini** #3 97 min, 46/53 passes, 1 interceptions, 3 pressures, value +0.06, 12.9 km	Pushes up to overlap the winger, or tucks inside as an extra midfielder, depending on the club's style. **This club:** Overlaps: runs past the winger on the outside.	Defends the left channel, tracks the opposing winger and closes down crosses.
CB Centre-back	**Idris Talenham** #25 97 min, 8/10 passes, 8 pressures, value +0.95, 11.4 km	Splits wide to build, plays the first pass out of defence and steps into midfield when space opens; stays back as cover against the counter.	Marks the main striker, defends the box and the space behind, and sets the height of the defensive line.
CB Centre-back	**Ben Prandal** #5 97 min, 11/12 passes, 1 interceptions, 6 pressures, value +0.34, 11.2 km	Splits wide to build, plays the first pass out of defence and steps into midfield when space opens; stays back as cover against the counter.	Marks the main striker, defends the box and the space behind, and sets the height of the defensive line.
RB Right back	**Mehmet Morarado** #2 97 min, 45/53 passes, 3 pressures, value +0.00, 12.9 km	Pushes up to overlap the winger, or tucks inside as an extra midfielder, depending on the club's style. **This club:** Overlaps: runs past the winger on the outside.	Defends the right channel, tracks the opposing winger and closes down crosses.
DM Holding midfielder (the pivot)	**Joel Pelandal** #8 listed CM, plays DM 97 min, 16/16 passes, 1 tackles, 1 interceptions, 16 pressures, value +0.06, 12.3 km	Offers the first line-breaking pass and links defence with midfield; may drop between the centre-backs to make a back three. **This club:** Drops between the centre-backs to build from the back.	Screens the back line, blocks the central lanes and wins second balls.
LM Left midfielder	**Dario Quinski** #17 listed LW, plays LM 97 min, 81/101 passes, 1 interceptions, 7 pressures, value +0.23, 13.4 km	Holds the left touchline or tucks inside, supporting the fullback. **This club:** In the press, closes from the inside to push the carrier toward the touchline.	Forms the wide part of the midfield bank and tracks back.
CM Central midfielder	**Tomas Pranton** #28 82 min, 34/37 passes, 2 tackles, 2 interceptions, 10 pressures, value +0.07, 10.6 km	Links play between the lines, supports the wide players and runs beyond the striker.	Covers the half-space, presses the ball carrier and tracks the runners coming from midfield.
CM Central midfielder	**Noah Belton** #16 74 min, 32/34 passes, 1 tackles, 4 pressures, value +0.06, 9.4 km	Links play between the lines, supports the wide players and runs beyond the striker.	Covers the half-space, presses the ball carrier and tracks the runners coming from midfield.
RM Right midfielder	**Felix Morworth** #19 listed RW, plays RM 71 min, 58/67 passes, 5 pressures, value -0.03, 9.7 km	Holds the right touchline or tucks inside, supporting the fullback. **This club:** In the press, closes from the inside to push the carrier toward the touchline.	Forms the wide part of the midfield bank and tracks back.
ST Striker	**Oscar Garorford** #9 97 min, 131/148 passes, 2 goals, 3 tackles, 2 interceptions, 8 pressures, value +2.83, 12.4 km	Pins the centre-backs and finishes; as a false nine drops into midfield to link play. **This club:** In the press, closes from the inside to push the carrier toward the touchline.	Leads the press: closes the centre-backs and cuts the pass to the pivot.

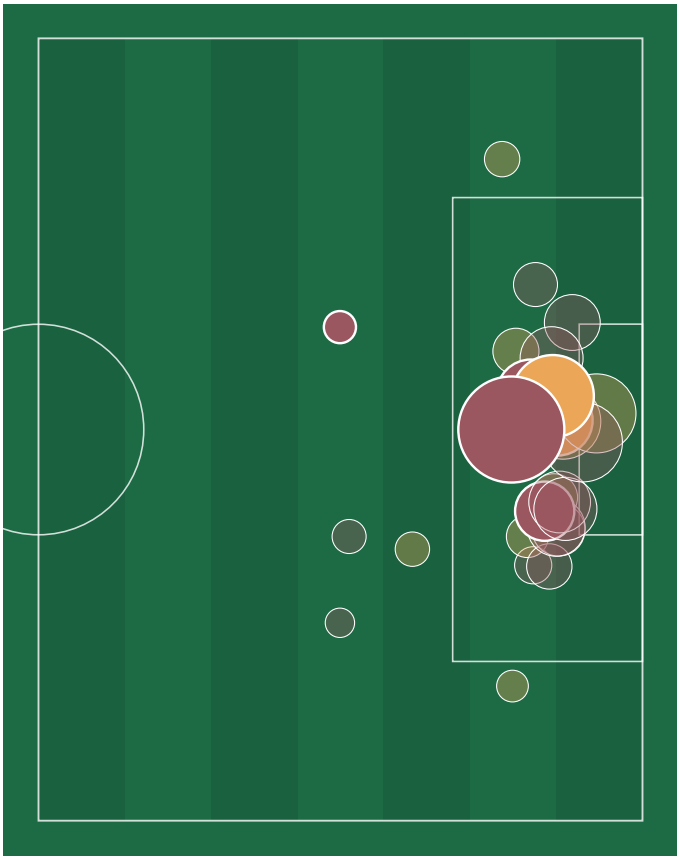

4. The analytics, view by view

Shots and expected goals

Every shot, sized by expected goals (xG: the chance a shot of that kind, from there, becomes a goal). Post-shot xG (xGOT) also uses where in the goal mouth it went, so it separates a good finish from a good chance.

	Redmoor	Saltmarsh
Shots	17	10
On target	6	5
Goals	4	2
Expected goals (xG)	2.93	1.60
Post-shot xG (xGOT)	2.32	2.43
Big chances	2	3

The best chance was Pablo Pelarski's (Redmoor, 58'), worth 0.78 xG and scored.

Shot map: both teams are drawn attacking the right-hand goal. Bigger circle, bigger chance; a solid circle is a goal (6 in this match).

Possession value: the actions that mattered

Possession value gives every pass, carry and shot a score: the change in the chance the team scores minus the chance it concedes within the next few actions. It finds the actions that mattered, including ones that never become an assist.

Minute	Player	Team	Action	Value
59'	Idris Talenham	Saltmarsh	pass	+0.953
58'	Pablo Pelarski	Redmoor	shot	+0.856
69'	Theo Ivarford	Redmoor	pass	+0.788
68'	Oscar Garorford	Saltmarsh	shot	+0.718
85'	Theo Ivarford	Redmoor	pass	+0.638
17'	Oscar Garorford	Saltmarsh	pass	+0.549

Most valuable players: Oscar Garorford (+2.83), Theo Ivarford (+1.79), Pablo Pelarski (+1.18), Idris Talenham (+0.95), Zane Roweov (+0.91).

Space and pitch control

Pitch control is who would reach each part of the pitch first, from where the players are standing. Control share is the share of the pitch a team controls; the block area is the size of the shape its ten outfield players make while defending.

	Redmoor	Saltmarsh
Pitch control share	50%	50%
Final-third control	11%	10%
Defensive block area (m2)	882	957
Space behind the line (m2)	41	57

Packing and line-breaking passes

Packing counts the opponents a forward pass takes out of the game; a line-breaking pass goes through a defensive line rather than around it.

	Redmoor	Saltmarsh
Completed forward passes counted	393	503
Opponents bypassed (packing)	657	539
Passes through a line	125	126
Passes through all three lines	1	0

The most damaging pass: Malik Zanelson to Pablo Pelarski at 16' took 10 opponents out of the game and broke 2 lines.

Passing networks

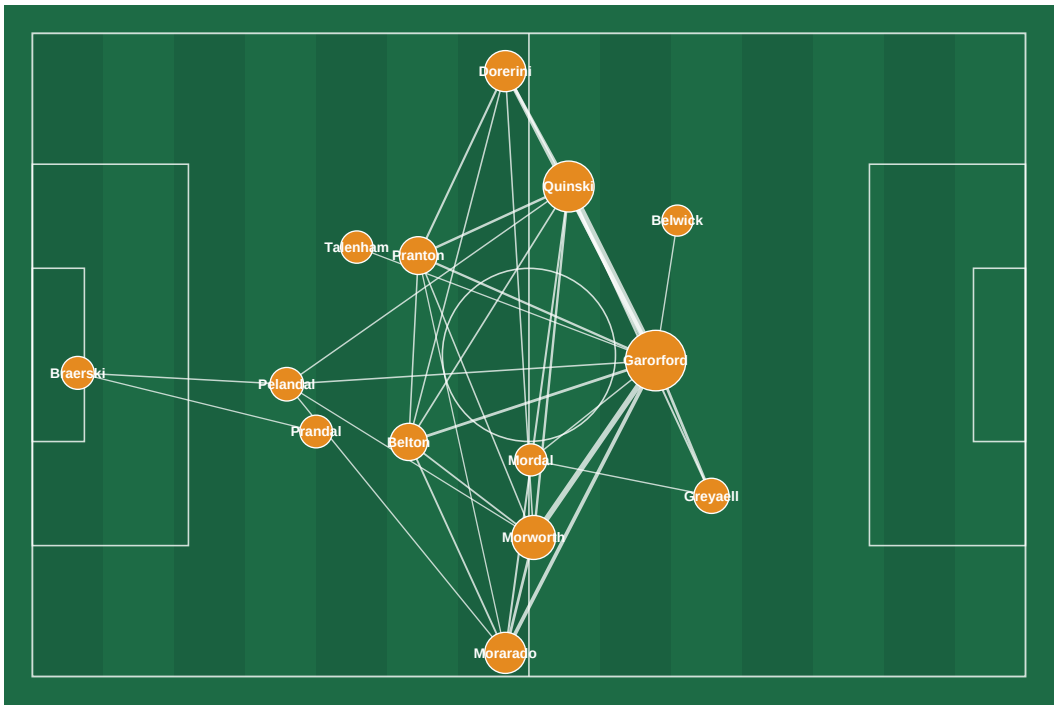

Each player sits at the average place he passed from; a line joins two players for each completed pass between them, and thicker means more.

Redmoor United

393 completed passes, average length 18.3 m, average position 48 m from the own goal. The strongest link is Pablo Pelarski and Zane Roweov (105 passes).

Saltmarsh Town

503 completed passes, average length 19.9 m, average position 46 m from the own goal. The strongest link is Oscar Garorford and Dario Quinski (83 passes).

Off-ball runs

Off-ball runs seen in the tracking: running in behind the defence, an overlap by a fullback, and a forward dropping into midfield. 'Ball played' says whether the run was found.

Run	Redmoor	Saltmarsh
In behind	4 (3 found)	1 (1 found)
Overlap	1 (0 found)	3 (0 found)
Drop into midfield	10 (2 found)	30 (8 found)

Physical load

Distance covered, high-speed running (above 19.8 km/h), sprint distance (above 25 km/h) and accelerations. The fatigue index compares high-speed running in the last half hour with the first fifteen minutes.

Player	Team	Distance km	High speed m	Sprint m	Accelerations
Theo Ivarford	Redmoor	4.8	658	49	52
Zane Roweov	Redmoor	10.7	610	66	119
Pablo Pelarski	Redmoor	9.0	555	95	98
Oscar Garorford	Saltmarsh	12.4	489	264	147
Dario Quinski	Saltmarsh	13.4	476	182	135

Transitions and pressing

What happens in the seconds after the ball changes hands: how often the team wins it straight back (counter-press), turns the ball over high up the pitch, and breaks quickly for a shot.

	Redmoor	Saltmarsh
Possessions lost	50	52
Won back within 5 s	9	8
Counter-press success	18%	15%
High turnovers	3	4
Shots from high turnovers	0	1
Fast breaks	1	1
Fast-break xG	0.02	0.05

PPDA is passes the opponent makes per defensive action of the pressing team, so a lower number means a harder press. It is shown by zone of the pitch, with what set each press off.

	Redmoor	Saltmarsh
Pressures	58	88
PPDA, opponent's third	34.3	14.0
PPDA, middle third	20.5	14.5
PPDA, own third	8.6	12.5
Press set off by a back pass	17%	31%
Press set off by a poor pass	12%	12%
Press set off by something else	71%	57%

Set pieces

Shots and expected goals that come from each kind of corner, free kick and goal kick, and how the team defends corners.

Team	Kind	Routine	Taken	Shots	xG	Goals
Redmoor	throw in	long	3	0	0.00	0
Redmoor	corner	far	2	0	0.00	0
Redmoor	goal kick	long	4	0	0.00	0
Redmoor	free kick	direct	2	0	0.00	0
Redmoor	free kick	cross	3	2	0.21	0
Saltmarsh	goal kick	short	10	0	0.00	0
Saltmarsh	goal kick	long	1	0	0.00	0
Saltmarsh	free kick	cross	1	0	0.00	0
Saltmarsh	free kick	direct	2	1	0.02	0
Saltmarsh	corner	edge	3	1	0.36	0

Corner defence: Redmoor man, Saltmarsh mixed.

Goalkeepers

Goals prevented is the post-shot xG a keeper faced minus the goals he conceded: above zero means he saved more than an average keeper would.

Keeper	Faced	Saves	Conceded	xGOT faced	Prevented	Claims	Pass %
Mehmet Vasaberg (Redmoor)	10	3	2	2.43	+0.43	0	75%
Marco Braerski (Saltmarsh)	17	2	4	2.32	-1.68	1	77%

Season context and prediction

The league's simulated history: where each club stands, its form, and a Poisson-model prediction of the result from each side's expected goals for and against.

Pos	Club	P	W	D	L	GF	GA	GD	Pts	Form
1	NOR	4	4	0	0	11	1	+10	12	
2	Redmoor United	4	1	2	1	8	9	-1	5	W W D L D
3	ALD	4	1	2	1	3	5	-2	5	
4	HAR	4	1	1	2	3	4	-1	4	
5	Saltmarsh Town	4	0	3	1	1	5	-4	3	L D L D D
6	KES	4	0	2	2	3	5	-2	2	

Before the match the model gave Redmoor 66%, a draw 21% and Saltmarsh 13%, with expected goals 1.90 to 0.70. The likeliest scores were 1-0 (14%), 2-0 (13%), 1-1 (10%).

Earlier meetings: Saltmarsh 0-4 Redmoor (round 5); Redmoor 4-0 Saltmarsh (round 10).

5. Every player

Impact combines possession value with goals and assists. Packing and line breaks count forward passes that took opponents out of the game; xG and xA are expected goals and expected assists from the player's shots and key passes.

Redmoor United

Player	Pos	Min	Pass	G	A	xG	xA	Tkl	Int	Press	Pack	Value	Km
Theo Ivarford	ST	32	41/50	1	0	0.44	0.07	1	1	2	41	+1.79	4.8
Pablo Pelarski	ST	65	78/95	2	1	1.22	0.98	2	1	10	39	+1.18	9.0
Zane Roweov	AM	76	75/95	1	1	1.21	0.49	4	0	12	87	+0.91	10.7
Mehmet Vasaberg	GK	n/a	3/4	0	0	0.00	0.00	0	0	0	9	+0.63	n/a
Idris Soladford	CB	97	8/11	0	0	0.00	0.02	2	0	3	36	+0.36	11.4
Dario Norarov	LW	14	8/10	0	0	0.00	0.00	0	1	2	29	+0.32	1.8
Felix Beldal	DM	21	37/42	0	1	0.07	0.38	0	1	1	20	+0.14	3.2
Malik Zanelson	LB	97	26/28	0	0	0.00	0.00	0	0	1	68	+0.13	12.7

6. All nine formations compared

How the formations the simulator knows differ in each phase. Numbers read from the deepest line to the front; the last column lists who stays back as cover when the team attacks. The two formations played in this match are in bold.

Formation	Idea	Build-up	Attack	Press	Block	Rest defence
3-4-2-1	back three, two tens in the half-spaces	3-4-2-1	3-2-4-1	3-4-2-1	5-4-1	CB CB CB
3-4-3	back three, wing-backs, a front three	3-4-3	3-2-5	3-4-3	5-4-1	CB CB CB
3-5-2	three centre-backs, wing-backs, two strikers	3-1-4-2	3-3-4	3-5-2	5-3-2	CB CB CB DM
4-1-4-1	a lone holding midfielder screening the back four	4-1-4-1	2-3-5	4-1-4-1	4-5-1	CB CB DM
4-2-3-1	double pivot, a ten behind one striker	4-2-3-1	2-4-4	4-4-2	4-4-1-1	CB CB DM DM
4-3-1-2	a midfield diamond and two strikers	4-1-2-1-2	2-3-3-2	4-3-1-2	4-3-1-2	CB CB DM
4-3-3	front three, one pivot, two eights	4-1-2-3	2-3-5	4-3-3	4-5-1	CB CB DM
4-4-2	two banks of four, a strike pair	4-4-2	2-4-4	4-4-2	4-4-2	CB CB
5-3-2	a back five and a counter-attacking pair	3-1-4-2	3-3-4	5-3-2	5-3-2	CB CB CB DM

Club tags change these shapes: a lone pivot that drops makes the build-up a back three, inverted fullbacks narrow it, a false nine drops the front line into midfield, and a back-three side presses and defends with its wing-backs dropping in.

Press schemes and transitions

- **Press scheme: zonal.** The team presses by zone: it holds a shape and closes the ball down when it enters the zone.
- **Press scheme: wide_trap.** The team presses with a trap: it closes from the inside to steer the ball to the touchline, then jumps on it with one more player.
- **Press scheme: man.** The team presses man for man: each player picks up a nearby opponent as well as pressing the ball.
- **On loss: counterpress.** The team counter-presses: it swarms the ball for about five seconds after losing it.
- **On loss: regroup.** The team regroups: it contains for two seconds, then drops back into shape.
- **On win: counter.** The team breaks at once after winning the ball.
- **On win: keep.** The team keeps its shape and builds after winning the ball.

7. What to trust

- All data is synthetic: the league, clubs, crests and players are fictional, and the matches are simulated at 5 Hz.
- Numbers are computed by code from events and tracking; no number in this report was written or estimated by a language model.
- Win probability, possession value and post-shot xG are fitted on simulated matches, so the ranking of actions and players is meaningful but the absolute values belong to the simulator, not to real football.
- Pitch control uses a simplified time-to-reach model (7 m/s, no velocity or ball), so read it as 'who is closer', not as a physical prediction.
- Shapes drawn in the tactics section are schematics: depth is an ordering between a team's back and front lines, not a measurement. The measured line height, length and width are averages over the time the team spent in each phase.
- Formations measured from tracking agree with the designed back-line count in about 85% of cases and with the exact label in about 39%; treat the measured label as 'what the average positions say'.

The win-probability model

Goals follow a Poisson process at a league rate of 0.0157 per team-minute over 95.8 minutes, blended with the match's own expected goals as if the prior were 30 minutes of evidence. A red card multiplies the ten-man side's scoring rate by 0.78 and the other side's by 1.22; those two are priors, not fitted. Penalties count as goals but not as expected-goals evidence.

Where the numbers come from

Events and tracking come from the 5 Hz simulator (or any feed in the same format). Code derives every metric; the report is assembled from the replay package and contains no model-written text. The same package drives the match center, the MCP tools and the on-screen graphics, so a number here matches the number there.
