Match report

Kestrel Vale 3 - 3 Aldergate Rovers

Lumen League. Synthetic match six-goal-thriller. Report built 2026-10-21.

At a glance

- **Result.** Kestrel 3 - 3 Aldergate. Shots 18 to 29, expected goals 1.21 to 4.87.
- **Biggest swing.** The goal at 90+1' moved the odds by 84 points.
- **Player of the match.** Nico Ossberg (Aldergate, AM) by possession value, +1.76.
- **Kestrel** played a 3-4-3; it spent most of the match in press (41% of the time).
- **Aldergate** played a 5-3-2; it spent most of the match in settled attack (43% of the time).

The match in the system's words

Kestrel and Aldergate shared the points. Possession Kestrel 50%, Aldergate 50%. Shots 18 to 29. xG 1.2 to 4.9. Pass accuracy 81% to 83%. Biggest swing: Aldergate's goal at 90' took their win probability from 1% to 12%. Player of the match: Nico Ossberg (Aldergate), goals 1, assists 0, shots 13.

How to read this report

Each part opens with a line in italics saying what the numbers measure, then shows what this match produced. Part 1 tells the story; part 2 shows how each team's shape changed with and without the ball; part 3 explains every position and who played it; part 4 goes through the analytics views one by one; part 5 lists every player; part 6 compares all nine formations; part 7 says how far to trust each number.

Contents

1. The story of the match 2

2. Tactics: the same team with and without the ball 4

3. Every position, and who played it 7

4. The analytics, view by view 9

5. Every player 16

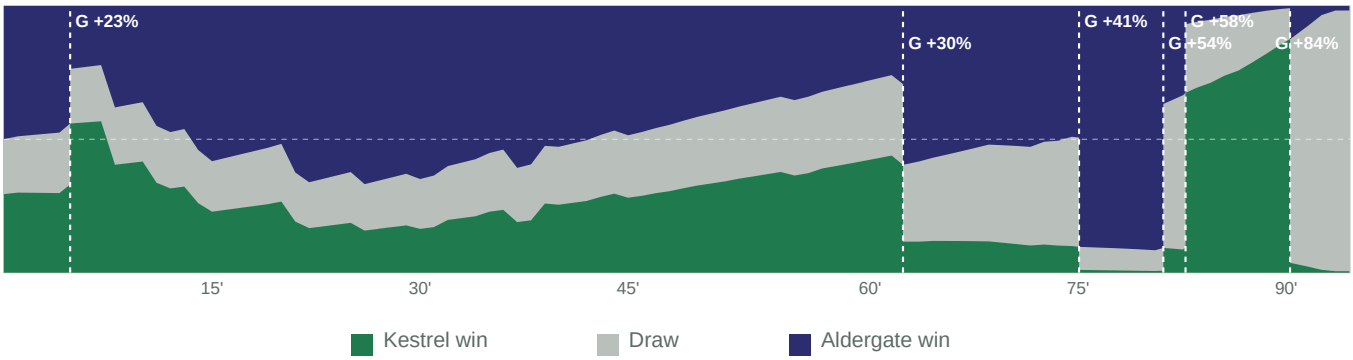

6. All nine formations compared 17

7. What to trust 18

1. The story of the match

Win probability

The chance each result is the right one, minute by minute, from the score, the time left, the expected goals so far and any sending-off. A goal moves it by the width of the step.

Before kick-off the model gave Kestrel 29%, a draw 21% and Aldergate 50%. At full time: 1%, 98%, 2%.

What moved the odds

Minute	Event	Kestrel	Draw	Aldergate
4'	Goal	33% to 56%	23% to 21%	44% to 24%
62'	Goal	40% to 12%	30% to 29%	29% to 60%
75'	Goal	10% to 1%	41% to 9%	49% to 90%
81'	Goal	1% to 9%	9% to 54%	91% to 37%
82'	Goal	10% to 67%	58% to 26%	33% to 7%
90+1'	Goal	88% to 4%	12% to 84%	1% to 12%

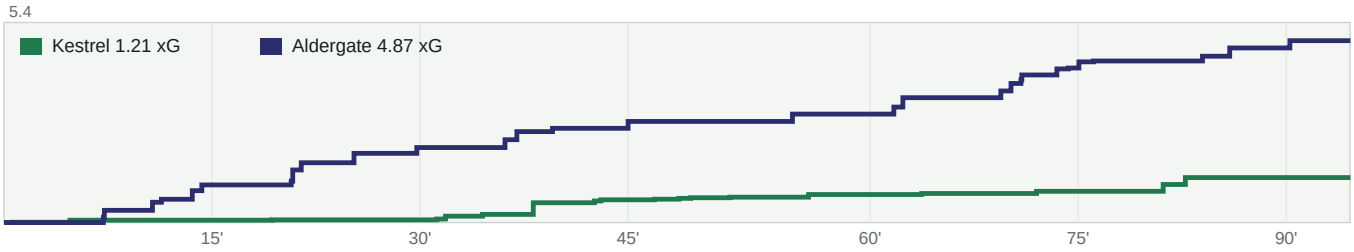

Key moments

The moments the system judged worth telling, with the reason and what it means. Salience is how much a moment deserves attention (0 to 1).

Minute	Moment	Team	Why it matters
4'	Goal	Kestrel	Ivan Lanini scores. It's Kestrel 1-0 Aldergate. Hugo Ravman set it up.
10'	Momentum swing	Aldergate	The momentum has swung: Aldergate are now the more dangerous side.
35'	Momentum swing	Kestrel	The momentum has swung: Kestrel are now the more dangerous side.
62'	Goal	Aldergate	Nico Ossberg scores from a corner. It's Kestrel 1-1 Aldergate. Gustav Yardal set it up.
75'	Goal	Aldergate	Marco Holestein scores. It's Kestrel 1-2 Aldergate. Zane Feninwick set it up.
78'	Tactical shift	Kestrel	Kestrel are now defending higher up the pitch.
81'	Goal	Kestrel	Cem Beliton scores. It's Kestrel 2-2 Aldergate. Hugo Braanell set it up.
81'	Momentum swing	Kestrel	The momentum has swung: Kestrel are now the more dangerous side.
82'	Goal	Kestrel	Hugo Braanell scores. It's Kestrel 3-2 Aldergate. Marco Oladski set it up.
88'	Momentum swing	Aldergate	The momentum has swung: Aldergate are now the more dangerous side.
89'	Pressure surge	Aldergate	Aldergate are closing down much quicker, giving Kestrel less time on the ball.
90'	Goal	Aldergate	Zane Feninwick scores. It's Kestrel 3-3 Aldergate. Callum Brainini set it up.
90+3'	Chaos flip		The game has settled, with longer, tidier spells of possession.

Expected goals through the match

Cumulative expected goals for each team; steps are shots.

2. Tactics: the same team with and without the ball

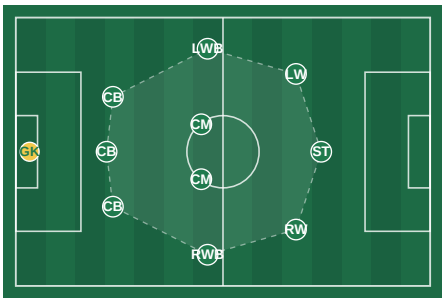

A formation is not one shape. Teams change shape with the ball, and how they press and how they behave in the seconds after winning or losing it depends on the shape they start from. Each team below is shown in six shapes: its nominal formation and the five working phases. The drawings are schematics, attacking left to right.

Kestrel Vale: 3-4-3

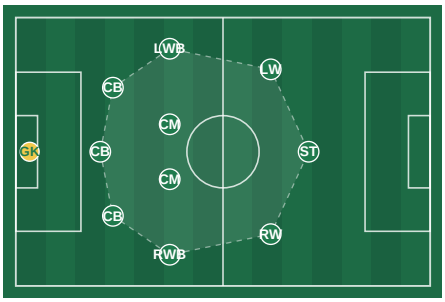

Back three, wing-backs, a front three.

Formation changes: 3-4-3 to 4-3-1-2 at 83'.

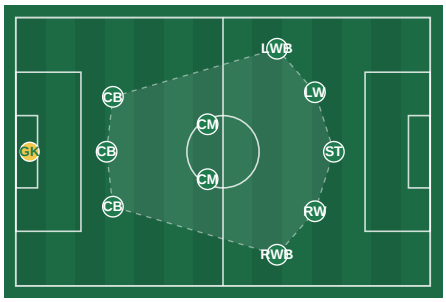

Nominal nominal

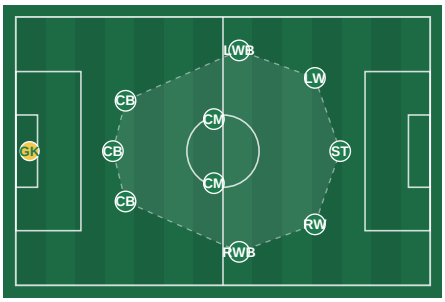

Build-up 3-4-3

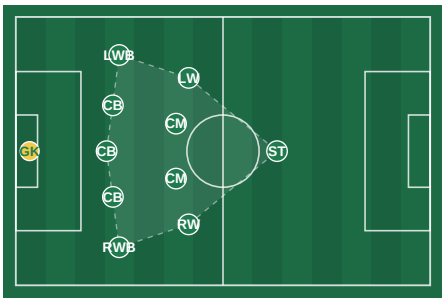

Settled attack 3-2-5

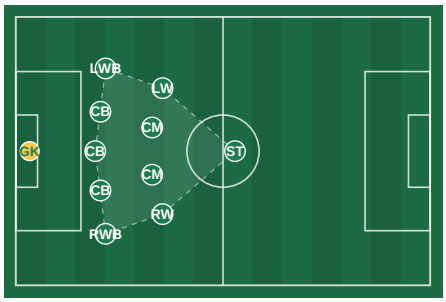

Press 3-4-3

Mid block 5-4-1

Low block compact

Rest defence. While the team attacks, CB CB CB stay behind the ball as cover against a counter.

Time in each phase

Phase	Share	Entered	Line height	Length	Width	What usually sets it off
Build-up	8%	37	15 m	31 m	53 m	ball in the own third (35), ball moved on from the own third (2)
Settled attack	40%	96	42 m	39 m	56 m	ball moved on from the own third (91), just lost the ball (counter-press) (4)
Press	41%	98	28 m	29 m	43 m	the ball entered the press zone (47), just lost the ball (counter-press) (47)
Mid block	6%	33	45 m	38 m	44 m	the ball is beyond the press line (33)
Low block	5%	6	22 m	27 m	31 m	protecting a lead late on (6)

Line height is the average distance of the four deepest outfield players from their own goal, length the distance between the deepest and highest outfield player, width the distance between the widest two. Each is averaged over the time the team spent in that phase.

Designed against measured. Designed: 5-4-1 out of possession, 3-2-5 in possession. Measured from the average positions: 3-4-3 out of possession, 3-2-5 in possession.

How the club plays it

Tactic	Setting	What it means
Press scheme	man	presses man for man: each player picks up a nearby opponent as well as pressing the ball
On loss	counterpress	counter-presses: it swarms the ball for about five seconds after losing it
On win	keep	keeps its shape and builds after winning the ball
Build up	mixed	mixes short and long from the goalkeeper
Fullbacks	hold	fullbacks hold their line
Pivot	stay	the pivot stays in midfield
Striker	target	a target nine who stays on the last line
Corners	mixed	varies its corners
Corner defence	zonal	defends corners by zone

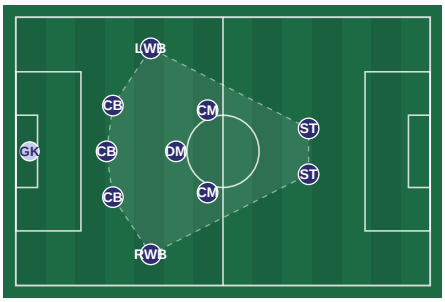

Style dials (0 to 1): press intensity 0.60, press height 0.55, line height 0.55, width 0.90, tempo 0.60, directness 0.45, counter bias 0.50.

Aldergate Rovers: 5-3-2

A back five and a counter-attacking pair.

Formation changes: 5-3-2 to 4-3-1-2 at 58'.

Nominal nominal

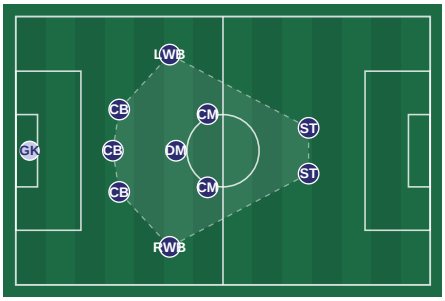

Build-up 3-1-4-2

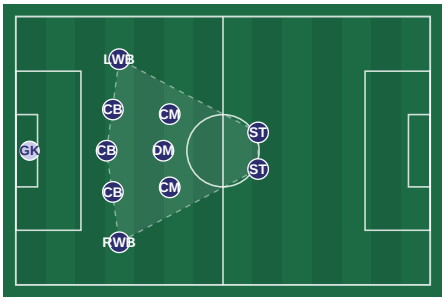

Settled attack 3-3-4

Press 5-3-2

Mid block 5-3-2

Low block compact

Rest defence. While the team attacks, CB CB CB DM stay behind the ball as cover against a counter.

Time in each phase

Phase	Share	Entered	Line height	Length	Width	What usually sets it off
Build-up	9%	47	14 m	32 m	49 m	ball in the own third (46), ball moved on from the own third (1)
Settled attack	43%	80	39 m	42 m	54 m	ball moved on from the own third (74), just lost the ball (counter-press) (4)
Press	0%	0	33 m	39 m	46 m	n/a
Mid block	36%	85	26 m	30 m	40 m	the ball is beyond the press line (72), a deep line: the ball is near the own goal (12)
Low block	13%	34	10 m	24 m	42 m	a deep line: the ball is near the own goal (33), the ball is beyond the press line (1)

Line height is the average distance of the four deepest outfield players from their own goal, length the distance between the deepest and highest outfield player, width the distance between the widest two. Each is averaged over the time the team spent in that phase.

Designed against measured. Designed: 5-3-2 out of possession, 3-3-4 in possession. Measured from the average positions: 3-5-2 out of possession, 2-3-3-2 in possession.

How the club plays it

Tactic	Setting	What it means
Press scheme	zonal	presses by zone: it holds a shape and closes the ball down when it enters the zone
On loss	regroup	regroups: it contains for two seconds, then drops back into shape
On win	counter	breaks at once after winning the ball
Build up	long	goes long from the goalkeeper
Fullbacks	hold	fullbacks hold their line
Pivot	stay	the pivot stays in midfield
Striker	target	a target nine who stays on the last line
Corners	far	targets the far post at corners
Corner defence	man	defends corners man for man

Style dials (0 to 1): press intensity 0.40, press height 0.20, line height 0.25, width 0.50, tempo 0.50, directness 0.70, counter bias 0.85.

The five phases

Build-up. The team has the ball in its own third. The centre-backs split, the pivot drops, the fullbacks and forwards hold their width and the team tries to play out under pressure.

Settled attack. The ball is past the first phase. Fullbacks and wing-backs push on, wide players come inside, and the team sets up for the final third while a few players stay back as cover against a counter.

Press. The other team has the ball in the zone where this team is willing to press. The front line steps up and angles its runs to cut passing lanes; the rest of the team squeezes up behind.

Mid block. The team defends in a compact shape with the ball beyond its press line. It keeps its lines close and waits for the pass that triggers the press.

Low block. The team defends deep: the ball is in its own third, or it is protecting a lead late on. Short, narrow and close to goal, it gives up possession to protect the box.

3. Every position, and who played it

For each of the eleven places in the team: the job in general, what this club asks of it, and the numbers of the player who filled it. Value is possession value: the change in the chance of scoring minus the chance of conceding that the player's actions created.

Kestrel Vale: 3-4-3

Position	Player	In possession	Out of possession
GK Goalkeeper	**Cem Mareldal** #1 9/10 passes, value +0.57	Starts attacks with short or long distribution and acts as an extra passer against a press; on a high line also sweeps up behind it.	Stops shots, claims crosses and organises the back line.
CB Centre-back	**Mehmet Halez** #4 87 min, 13/15 passes, 1 tackles, 1 interceptions, 9 pressures, value +0.02, 10.8 km	Splits wide to build, plays the first pass out of defence and steps into midfield when space opens; stays back as cover against the counter.	Marks the main striker, defends the box and the space behind, and sets the height of the defensive line.
CB Centre-back	**Dario Greyinez** #15 97 min, 11/14 passes, 10 pressures, value +0.33, 12.4 km	Splits wide to build, plays the first pass out of defence and steps into midfield when space opens; stays back as cover against the counter.	Marks the main striker, defends the box and the space behind, and sets the height of the defensive line.
CB Centre-back	**Gabriel Vorersen** #5 97 min, 9/11 passes, 2 tackles, 8 pressures, value +0.18, 12.6 km	Splits wide to build, plays the first pass out of defence and steps into midfield when space opens; stays back as cover against the counter.	Marks the main striker, defends the box and the space behind, and sets the height of the defensive line.
LWB Left wing-back	**Marco Oladski** #3 listed LB, plays LWB 97 min, 35/41 passes, 1 assists, 1 interceptions, 12 pressures, value +0.15, 13.4 km	Plays as the left winger: stays high and wide to stretch the pitch, so a back three builds as a 3-2-5. **This club:** Picks up a nearby opponent in the press rather than holding a zone.	Drops into the back line to make a back five.
CM Central midfielder	**Dario Zanton** #8 97 min, 23/28 passes, 2 tackles, 3 interceptions, 13 pressures, value +0.05, 13.3 km	Links play between the lines, supports the wide players and runs beyond the striker. **This club:** Picks up a nearby opponent in the press rather than holding a zone.	Covers the half-space, presses the ball carrier and tracks the runners coming from midfield.
CM Central midfielder	**Gabriel Wexell** #28 97 min, 23/30 passes, 1 tackles, 3 interceptions, 18 pressures, value +0.19, 13.2 km	Links play between the lines, supports the wide players and runs beyond the striker. **This club:** Picks up a nearby opponent in the press rather than holding a zone.	Covers the half-space, presses the ball carrier and tracks the runners coming from midfield.
RWB Right wing-back	**Rafael Falenham** #22 listed RB, plays RWB 97 min, 33/39 passes, 2 tackles, 1 interceptions, 7 pressures, value +0.55, 13.5 km	Plays as the right winger: stays high and wide to stretch the pitch, so a back three builds as a 3-2-5. **This club:** Picks up a nearby opponent in the press rather than holding a zone.	Drops into the back line to make a back five.
LW Left winger	**Noah Lorell** #17 80 min, 70/87 passes, 4 tackles, 12 pressures, value +0.32, 11.9 km	Stays wide to stretch the back line, or cuts inside to shoot; attacks the space behind when the nine drops. **This club:** Picks up a nearby opponent in the press rather than holding a zone.	Presses the fullback, curving the run to cut the pass inside; drops to the midfield line in a 4-5-1.
ST Striker	**Ivan Lanini** #10 listed AM, plays ST 68 min, 88/104 passes, 1 goals, 2 tackles, 2 interceptions, 16 pressures, value +0.69, 10.1 km	Pins the centre-backs and finishes; as a false nine drops into midfield to link play. **This club:** Picks up a nearby opponent in the press rather than holding a zone.	Leads the press: closes the centre-backs and cuts the pass to the pivot.
RW Right winger	**Hugo Ravman** #19 97 min, 81/109 passes, 1 assists, 1 tackles, 1 interceptions, 12 pressures, value +0.28, 14.8 km	Stays wide to stretch the back line, or cuts inside to shoot; attacks the space behind when the nine drops. **This club:** Picks up a nearby opponent in the press rather than holding a zone.	Presses the fullback, curving the run to cut the pass inside; drops to the midfield line in a 4-5-1.

Aldergate Rovers: 5-3-2

Position	Player	In possession	Out of possession
GK Goalkeeper	**Gustav Treanstein** #31 10/14 passes, value +0.68	Starts attacks with short or long distribution and acts as an extra passer against a press; on a high line also sweeps up behind it.	Stops shots, claims crosses and organises the back line.
CB Centre-back	**Zane Marawick** #4 97 min, 15/19 passes, 1 interceptions, 4 pressures, value +0.06, 12.1 km	Splits wide to build, plays the first pass out of defence and steps into midfield when space opens; stays back as cover against the counter.	Marks the main striker, defends the box and the space behind, and sets the height of the defensive line.
CB Centre-back	**Adrian Kovini** #25 97 min, 6/8 passes, 2 tackles, 1 interceptions, 4 pressures, value +0.03, 11.5 km	Splits wide to build, plays the first pass out of defence and steps into midfield when space opens; stays back as cover against the counter.	Marks the main striker, defends the box and the space behind, and sets the height of the defensive line.
CB Centre-back	**Kai Devstein** #5 97 min, 9/11 passes, 1 tackles, 7 pressures, value -0.03, 11.7 km	Splits wide to build, plays the first pass out of defence and steps into midfield when space opens; stays back as cover against the counter.	Marks the main striker, defends the box and the space behind, and sets the height of the defensive line.
LWB Left wing-back	**Marco Holestein** #11 listed LW, plays LWB 84 min, 35/50 passes, 1 goals, 1 tackles, 2 interceptions, 8 pressures, value +0.31, 11.7 km	Plays as the left winger: stays high and wide to stretch the pitch, so a back three builds as a 3-2-5.	Drops into the back line to make a back five.
RWB Right wing-back	**Ayo Keladski** #22 listed RB, plays RWB 97 min, 28/34 passes, 2 tackles, 1 interceptions, 7 pressures, value -0.09, 13.0 km	Plays as the right winger: stays high and wide to stretch the pitch, so a back three builds as a 3-2-5.	Drops into the back line to make a back five.
DM Holding midfielder (the pivot)	**Mehmet Treman** #16 listed CM, plays DM 97 min, 18/21 passes, 1 tackles, 2 interceptions, 18 pressures, value +0.21, 12.5 km	Offers the first line-breaking pass and links defence with midfield; may drop between the centre-backs to make a back three.	Screens the back line, blocks the central lanes and wins second balls.
CM Central midfielder	**Marco Holorado** #20 97 min, 23/30 passes, 1 tackles, 1 interceptions, 6 pressures, value +0.06, 12.8 km	Links play between the lines, supports the wide players and runs beyond the striker.	Covers the half-space, presses the ball carrier and tracks the runners coming from midfield.
CM Central midfielder	**Emil Kovdal** #28 97 min, 22/28 passes, 1 tackles, 3 interceptions, 3 pressures, value +0.16, 13.1 km	Links play between the lines, supports the wide players and runs beyond the striker.	Covers the half-space, presses the ball carrier and tracks the runners coming from midfield.
ST Striker	**Gustav Yardal** #21 listed AM, plays ST 72 min, 98/111 passes, 1 assists, 1 tackles, 2 interceptions, 8 pressures, value +0.14, 11.3 km	Pins the centre-backs and finishes; as a false nine drops into midfield to link play.	Leads the press: closes the centre-backs and cuts the pass to the pivot.
ST Striker	**Nico Ossberg** #10 listed AM, plays ST 70 min, 98/120 passes, 1 goals, 2 tackles, 7 pressures, value +1.76, 10.3 km	Pins the centre-backs and finishes; as a false nine drops into midfield to link play.	Leads the press: closes the centre-backs and cuts the pass to the pivot.

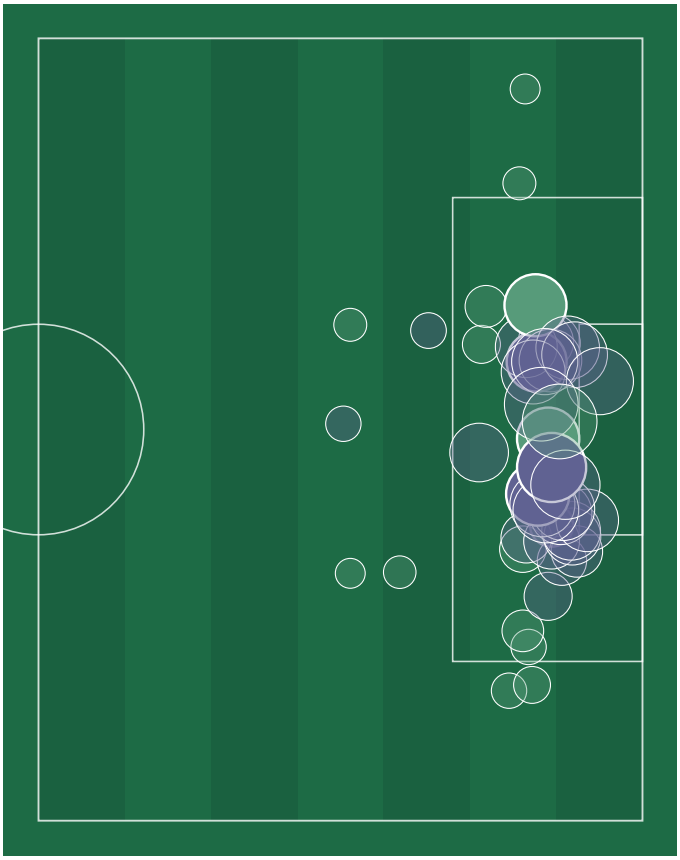

4. The analytics, view by view

Shots and expected goals

Every shot, sized by expected goals (xG: the chance a shot of that kind, from there, becomes a goal). Post-shot xG (xGOT) also uses where in the goal mouth it went, so it separates a good finish from a good chance.

	Kestrel	Aldergate
Shots	18	29
On target	6	4
Goals	3	3
Expected goals (xG)	1.21	4.87
Post-shot xG (xGOT)	1.87	2.17
Big chances	1	1

The best chance was Ivan Lanini's (Kestrel, 38'), worth 0.31 xG and off_target.

Shot map: both teams are drawn attacking the right-hand goal. Bigger circle, bigger chance; a solid circle is a goal (6 in this match).

Possession value: the actions that mattered

Possession value gives every pass, carry and shot a score: the change in the chance the team scores minus the chance it concedes within the next few actions. It finds the actions that mattered, including ones that never become an assist.

Minute	Player	Team	Action	Value
62'	Ivan Lanini	Kestrel	pass	+0.571
90+1'	Hugo Braanell	Kestrel	pass	+0.537
83'	Zane Feninwick	Aldergate	pass	+0.521
62'	Nico Ossberg	Aldergate	shot	+0.504
90+1'	Zane Feninwick	Aldergate	shot	+0.464
82'	Hugo Braanell	Kestrel	shot	+0.452

Most valuable players: Nico Ossberg (+1.76), Zane Feninwick (+1.27), Hugo Braanell (+1.02), Ivan Lanini (+0.69), Gustav Treanstein (+0.68).

Space and pitch control

Pitch control is who would reach each part of the pitch first, from where the players are standing. Control share is the share of the pitch a team controls; the block area is the size of the shape its ten outfield players make while defending.

	Kestrel	Aldergate
Pitch control share	52%	48%
Final-third control	14%	14%
Defensive block area (m2)	950	932
Space behind the line (m2)	82	34

Packing and line-breaking passes

Packing counts the opponents a forward pass takes out of the game; a line-breaking pass goes through a defensive line rather than around it.

	Kestrel	Aldergate
Completed forward passes counted	442	437
Opponents bypassed (packing)	663	685
Passes through a line	143	133
Passes through all three lines	0	1

The most damaging pass: Marco Holorado to Zane Feninwick at 72' took 10 opponents out of the game and broke 3 lines.

Passing networks

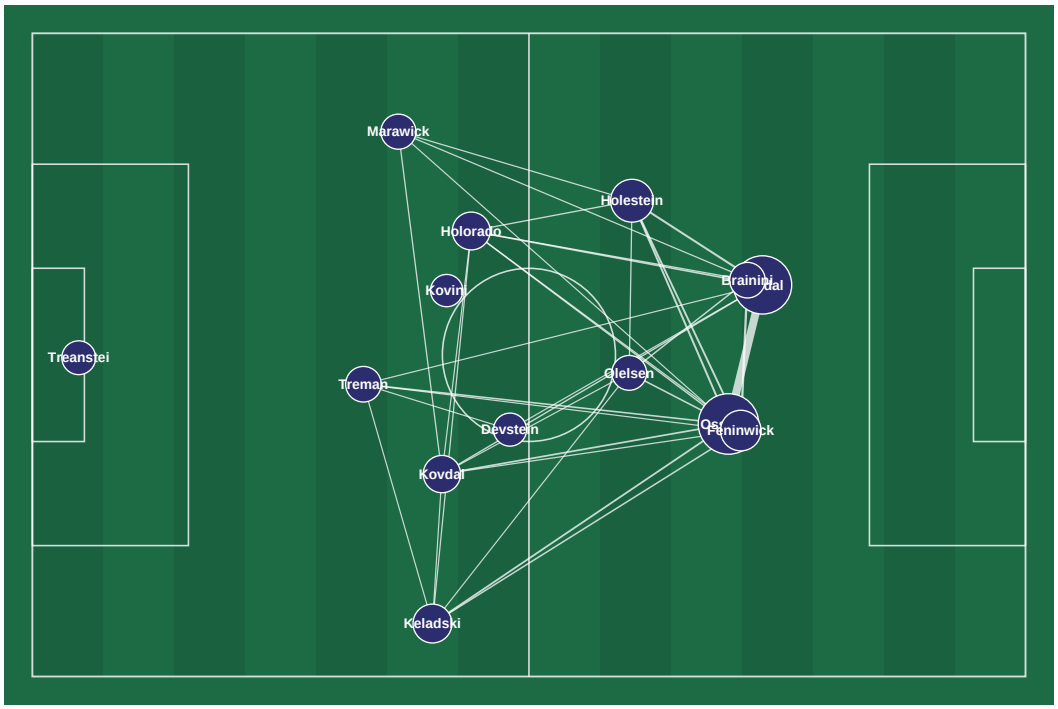

Each player sits at the average place he passed from; a line joins two players for each completed pass between them, and thicker means more.

Kestrel Vale

442 completed passes, average length 20.3 m, average position 50 m from the own goal. The strongest link is Ivan Lanini and Hugo Ravman (60 passes).

Aldergate Rovers

437 completed passes, average length 18.1 m, average position 52 m from the own goal. The strongest link is Nico Ossberg and Gustav Yardal (144 passes).

Off-ball runs

Off-ball runs seen in the tracking: running in behind the defence, an overlap by a fullback, and a forward dropping into midfield. 'Ball played' says whether the run was found.

Run	Kestrel	Aldergate
In behind	1 (1 found)	13 (8 found)
Overlap	7 (0 found)	2 (0 found)
Drop into midfield	50 (7 found)	14 (3 found)

Physical load

Distance covered, high-speed running (above 19.8 km/h), sprint distance (above 25 km/h) and accelerations. The fatigue index compares high-speed running in the last half hour with the first fifteen minutes.

Player	Team	Distance km	High speed m	Sprint m	Accelerations
Gustav Yardal	Aldergate	11.3	1517	294	114
Nico Ossberg	Aldergate	10.3	1070	100	98
Marco Holestein	Aldergate	11.7	555	87	88
Zane Feninwick	Aldergate	3.6	466	32	50
Gabriel Wexell	Kestrel	13.2	432	56	98

Transitions and pressing

What happens in the seconds after the ball changes hands: how often the team wins it straight back (counter-press), turns the ball over high up the pitch, and breaks quickly for a shot.

	Kestrel	Aldergate
Possessions lost	59	70
Won back within 5 s	16	15
Counter-press success	27%	21%
High turnovers	3	0
Shots from high turnovers	0	0
Fast breaks	1	3
Fast-break xG	0.18	0.14

PPDA is passes the opponent makes per defensive action of the pressing team, so a lower number means a harder press. It is shown by zone of the pitch, with what set each press off.

	Kestrel	Aldergate
Pressures	130	87
PPDA, opponent's third	15.3	n/a
PPDA, middle third	11.5	16.1
PPDA, own third	19.5	10.8
Press set off by a back pass	25%	14%
Press set off by a poor pass	17%	16%
Press set off by something else	58%	70%

Set pieces

Shots and expected goals that come from each kind of corner, free kick and goal kick, and how the team defends corners.

Team	Kind	Routine	Taken	Shots	xG	Goals
Kestrel	goal kick	short	6	0	0.00	0
Kestrel	goal kick	long	3	0	0.00	0
Kestrel	corner	short	4	0	0.00	0
Kestrel	corner	far	1	0	0.00	0
Kestrel	corner	near	2	0	0.00	0
Kestrel	corner	edge	1	1	0.19	1
Kestrel	free kick	cross	1	1	0.31	0
Kestrel	free kick	direct	2	1	0.02	0
Aldergate	goal kick	long	10	0	0.00	0
Aldergate	goal kick	short	3	0	0.00	0
Aldergate	corner	far	5	0	0.00	0
Aldergate	corner	edge	4	0	0.00	0
Aldergate	corner	short	1	0	0.00	0
Aldergate	corner	near	1	0	0.00	0

Corner defence: Kestrel zonal, Aldergate man.

Goalkeepers

Goals prevented is the post-shot xG a keeper faced minus the goals he conceded: above zero means he saved more than an average keeper would.

Keeper	Faced	Saves	Conceded	xGOT faced	Prevented	Claims	Pass %
Cem Mareldal (Kestrel)	29	1	3	2.17	-0.83	1	90%
Gustav Treanstein (Aldergate)	18	3	3	1.87	-1.13	0	71%

Season context and prediction

The league's simulated history: where each club stands, its form, and a Poisson-model prediction of the result from each side's expected goals for and against.

Pos	Club	P	W	D	L	GF	GA	GD	Pts	Form
1	NOR	4	4	0	0	11	1	+10	12	
2	RED	4	1	2	1	8	9	-1	5	
3	Aldergate Rovers	4	1	2	1	3	5	-2	5	W DD W L
4	HAR	4	1	1	2	3	4	-1	4	
5	SAL	4	0	3	1	1	5	-4	3	
6	Kestrel Vale	4	0	2	2	3	5	-2	2	LL LD D

Before the match the model gave Kestrel 29%, a draw 22% and Aldergate 49%, with expected goals 1.52 to 2.01. The likeliest scores were 1-2 (9%), 1-1 (9%), 2-2 (7%).

Earlier meetings: Kestrel 1-3 Aldergate (round 5); Aldergate 2-0 Kestrel (round 10).

5. Every player

Impact combines possession value with goals and assists. Packing and line breaks count forward passes that took opponents out of the game; xG and xA are expected goals and expected assists from the player's shots and key passes.

Kestrel Vale

Player	Pos	Min	Pass	G	A	xG	xA	Tkl	Int	Press	Pack	Value	Km
Hugo Braanell	AM	29	27/35	1	1	0.24	0.18	1	0	8	39	+1.02	4.2
Ivan Lanini	AM	68	88/104	1	0	0.38	0.17	2	2	16	55	+0.69	10.1
Cem Beliton	RW	17	17/19	1	0	0.18	0.00	0	0	2	13	+0.40	2.6
Cem Mareldal	GK	n/a	9/10	0	0	0.00	0.00	0	0	0	6	+0.57	n/a
Rafael Falenham	RB	97	33/39	0	0	0.00	0.01	2	1	7	76	+0.55	13.5
Hugo Ravman	RW	97	81/109	0	1	0.21	0.28	1	1	12	122	+0.28	14.8

6. All nine formations compared

How the formations the simulator knows differ in each phase. Numbers read from the deepest line to the front; the last column lists who stays back as cover when the team attacks. The two formations played in this match are in bold.

Formation	Idea	Build-up	Attack	Press	Block	Rest defence
3-4-2-1	back three, two tens in the half-spaces	3-4-2-1	3-2-4-1	3-4-2-1	5-4-1	CB CB CB
3-4-3	back three, wing-backs, a front three	3-4-3	3-2-5	3-4-3	5-4-1	CB CB CB
3-5-2	three centre-backs, wing-backs, two strikers	3-1-4-2	3-3-4	3-5-2	5-3-2	CB CB CB DM
4-1-4-1	a lone holding midfielder screening the back four	4-1-4-1	2-3-5	4-1-4-1	4-5-1	CB CB DM
4-2-3-1	double pivot, a ten behind one striker	4-2-3-1	2-4-4	4-4-2	4-4-1-1	CB CB DM DM
4-3-1-2	a midfield diamond and two strikers	4-1-2-1-2	2-3-3-2	4-3-1-2	4-3-1-2	CB CB DM
4-3-3	front three, one pivot, two eights	4-1-2-3	2-3-5	4-3-3	4-5-1	CB CB DM
4-4-2	two banks of four, a strike pair	4-4-2	2-4-4	4-4-2	4-4-2	CB CB
5-3-2	a back five and a counter-attacking pair	3-1-4-2	3-3-4	5-3-2	5-3-2	CB CB CB DM

Club tags change these shapes: a lone pivot that drops makes the build-up a back three, inverted fullbacks narrow it, a false nine drops the front line into midfield, and a back-three side presses and defends with its wing-backs dropping in.

Press schemes and transitions

- **Press scheme: zonal.** The team presses by zone: it holds a shape and closes the ball down when it enters the zone.
- **Press scheme: wide_trap.** The team presses with a trap: it closes from the inside to steer the ball to the touchline, then jumps on it with one more player.
- **Press scheme: man.** The team presses man for man: each player picks up a nearby opponent as well as pressing the ball.
- **On loss: counterpress.** The team counter-presses: it swarms the ball for about five seconds after losing it.
- **On loss: regroup.** The team regroups: it contains for two seconds, then drops back into shape.
- **On win: counter.** The team breaks at once after winning the ball.
- **On win: keep.** The team keeps its shape and builds after winning the ball.

7. What to trust

- All data is synthetic: the league, clubs, crests and players are fictional, and the matches are simulated at 5 Hz.
- Numbers are computed by code from events and tracking; no number in this report was written or estimated by a language model.
- Win probability, possession value and post-shot xG are fitted on simulated matches, so the ranking of actions and players is meaningful but the absolute values belong to the simulator, not to real football.
- Pitch control uses a simplified time-to-reach model (7 m/s, no velocity or ball), so read it as 'who is closer', not as a physical prediction.
- Shapes drawn in the tactics section are schematics: depth is an ordering between a team's back and front lines, not a measurement. The measured line height, length and width are averages over the time the team spent in each phase.
- Formations measured from tracking agree with the designed back-line count in about 85% of cases and with the exact label in about 39%; treat the measured label as 'what the average positions say'.

The win-probability model

Goals follow a Poisson process at a league rate of 0.0157 per team-minute over 95.8 minutes, blended with the match's own expected goals as if the prior were 30 minutes of evidence. A red card multiplies the ten-man side's scoring rate by 0.78 and the other side's by 1.22; those two are priors, not fitted. Penalties count as goals but not as expected-goals evidence.

Where the numbers come from

Events and tracking come from the 5 Hz simulator (or any feed in the same format). Code derives every metric; the report is assembled from the replay package and contains no model-written text. The same package drives the match center, the MCP tools and the on-screen graphics, so a number here matches the number there.
